

Voluntary Workers Insurance

An organisation that relies on voluntary workers has a responsibility to ensure that they remain protected. Chase voluntary workers product can provide that cover.

While an unpaid workforce is not covered by workers compensation, they still face the risk of injury while performing their duties. Voluntary workers insurance will compensate volunteers whilst they are unable to fulfil their normal work obligations. The policy also includes lump sum benefits from death, loss of limbs and permanent partial disablement. A comprehensive voluntary workers policy will ensure organisations meet their duty of care obligations to their volunteers.

Voluntary workers insurance highlights
